Circular Letter no. 299

Dear Member,

Our third International Tour in Greece. After Epirus and the Peloponnese, this year our Alfa Romeos will travel the roads of Macedonia. Through highly interesting natural sites, we will visit a region with a glorious historical past. History, art, and Nature will be the setting of our Tour which will naturally also include a dip in the most beautiful waters of Greece.

In this region, Hellenisation was completed at the time of King Philip II (359 - 336 BC) who, with his military conquests, led the kingdom of Macedonia to hegemony over the Greek cities of the territory. Later, his son Alexander the Great (336-323 BC) conquered a vast empire in the East, defeating the Persian empire and spreading Greek civilization in the area. The Greeks thus became the dominant élite of a large territory. His incredible military feats, achieved at a very young age, his premature and mysterious death, and the mystery enveloping his tomb, have moulded the myth of this great leader (recently spread all over the world thanks to a famous film) which still remains in these lands. One of his sayings could be adopted by us as Alfa enthusiasts: "There is nothing impossible to him who will try".

Even today, the value of the name Macedonia is so heartfelt that recent violent disputes were triggered about the attribution of the name Northern Macedonia to the neighbouring independent state separated from Greek Macedonia. Fortunately, this conflict has been overcome today.

We are enclosing the general programme and enrolment form for the event in this letter. Please complete the form in all its parts and send it as soon as possible to the Secretariat by email (registroalfa@riar.it) or fax (fax no. +39 02 44428183).
